Bundle and save

Designed to deliver healthier outcomes and lower health care costs

Bundling with multiple specialty products and/or medical can create greater savings and may help lead to better health outcomes.

Helping you save time and money

By bundling plans, we make it easier for you to qualify for health plan savings — and you can enjoy simplicity with one account team, one bill, and streamlined claims and benefits administration.

Indemnity plans are also available where our network may not be available. Indemnity plans provide equal network and out-of-network benefits.

Benefits designed to help boost coverage and health

Additional wellness benefits

PPO and INO plans automatically include the following wellness benefits, which can also be added to other dental plans:

- **White fillings**– All standard plans include full coverage for white fillings on back teeth (posterior composites)
- **Oral cancer benefit** – Routine screenings for adults for early detection, which may include a brush biopsy
- **Prenatal dental care benefit** – Additional visits for dental cleanings and gum treatments during pregnancy and 3 months after delivery
- You can also choose to add additional preventive visits and periodontal screenings

Benefits can be extended for large groups to include additional health conditions such as diabetes, heart conditions and more.

Rewards for healthy habits

With PPO and INO plans, you can choose plan features and benefit designs that aim to help increase employee engagement in their dental health and may help keep your costs down. These include:

- Rewarding routine dental care with award dollars that roll over from year to year and may be used for future dental services
- Covering preventive and diagnostic services that don't affect annual maximums
- Rewarding regular preventive dental care with higher benefits (e.g., coinsurance) the following year

A wider range of dental coverage for small businesses

More reasons to smile

While small business health plans may cover pediatric dental benefits,⁴ a separate dental plan can provide broader dental coverage for adults and eligible children in need of services not covered under their health plan.
